DESCRIPTION

Impact ratchet 3/8" 122 nm

PRECISE: This ratchet functions in 'click-push' mode, its impact system includes an anti-reaction effect and its needle bearings ensure great precision.

FAST: 3 times faster than a conventional ratchet.

This tool is essential for coping with the new technical requirements in the area of mechanics.

It comes fully equipped: ergonomic sheathing, rear exhaust on silencer, variable torque/speed control.

For ease-of-use, it has an area for your thumb and a stop for your index finger, ensuring an excellent grip.

This wrench coupled with the flexible multi-flow accessory (Ref. 19015-MF) regulates the flow to 200 or 400 l/mn. It saves compressor power and can generate air consumption savings of up to 20%.
