## DESCRIPTION

### Long-lasting intensive impact wrench, 1" metallic series

**ROBUST** Its twin-hammer impact system coupled with a damper offers increased robustness and lower vibration levels.

**PRACTICAL** The axially situated supply and exhaust couplings do away with the problem of pipes getting in the way.

**HIGH-PERFORMANCE** Its vane motor made of alloys derived from automotive mechanics make it possible to provide power levels (2,300 Nm) 30% higher than those of traditional machines. Short- or long-peg wrench, classified LD (long duration) designed for interventions on HGV wheels, as well as in the area of civil engineering, demanding tyre applications... Aluminium two-body casing. Swivelling auxiliary handle. Ergonomic 45° rear handle. Reverser and variable power control. Rear exhaust on ductable silencer. The progressive pushbutton makes it very practical to use.
