DESCRIPTION

Pneumatic suction surfer - 200 mm

PRECISE Its 700 W motor ensures consistent sanding even if the operator applies a maximum force. Its adjustable low rotation speed ensures precise control of the work in hand with an irreproachable finish. **TECHNICAL** In order to ensure its hypocycloidal movement, the 1454 has a 'stepped' housing for its elements, as well as a powerful motor with 8 profiled vanes. Dressing and roughing tool. Ensures great utilisation comfort and does not leave any visible streaks on the sanded surface. Light alloy body with variable speed control. Silent rear exhaust and rotary supply coupling. Direct connection to the dust duct. Handle and casing insulated against the cold for long sanding operations. Tool perfect for HGV bodywork, and also in industrial sectors.
