DESCRIPTION

Grinder vulcanizer multitech

HIGH-PERFORMANCE

This grinder combines regulated speed (20,000 rpm), power of 450 W for quick finishings and a 'full hand' handle that is very practical for the operator when working on tyres.

This grinder is a special version for tyre workers.

Powerful motor (450 W).

Comfortable sheathed casing.

Silent ductable rear exhaust.

Digital variable speed control.

Low noise level.

The hose equipment (Ref.19012) deviates the cold air and avoids the dispersion of rubber dust making the surface clean for vulcanisation.

Can be supplied with a 10 mm chuck.

High speed version with model 1612G.
