DESCRIPTION

Reversible revolver drill with automatic chuck - 10 mm - 2,600 rpm

POWERFUL

Its speed/power ratio means this drill is ideal for intensive use.

COMFORTABLE

New design in order to reduce musculoskeletal disorders thanks to its proportions: 1/3 for the body, 1/3 for the nose and 1/3 for the handle.

The rounded end can be used to store control devices and also plays the role of counterweight, giving the tool a perfect balance, a good grip and an excellent sensation of lightness.

Reversible drill. Powerful motor thanks to its new-generation motorisation (670 W).

Combines power-speed-low noise.

Highly ergonomic handle with sheath insulating against the cold.

Exhaust through the handle.

Progressive trigger.
