DESCRIPTION

Adjustable reversible air screwdriver 800 tr/min

EFFICIENT

Its speed range of up to 800 rpm not only enables excellent control when engaging the screw in the material but also working at 500 rpm for precision tightening or delicate assembling operations.

MULTIPURPOSE

Power screwdriver particularly well suited not only for standard applications but also for meticulous repair operations.

COMFORTABLE

Its flared handle tilted at 2° has a finger positioning imprint. The operator's arm is in line with the trigger avoiding any bent wrist effect.

This is the conventional power screwdriver in our Metallic range, renowned for its multi-task applications.

Greatly appreciated for its ergonomics, with its 'adjustable' clutch, the tool engages by pressing lightly on it, and disengages automatically when the set torque value is reached.

Aluminium body.

Adjustable torque. One-handed reversing and startup.

Lower exhaust on ductable silencer.
