## DESCRIPTION

### Torque screw gun

**COMPETITIVE** Three different aligned springs enable perfect functioning whatever the tightening operation, and therefore a notable gain in productivity. The combination of a low weight (900 g) and very good insulation enables intensive use.

**PRECISE** Its great tightening torque range (0.2 - 5.1 Nm) as well as its high torque value make it possible to accomplish every type of application and also authorises its use for precise assembly-disassembly jobs. Production power screwdriver with 'air shut-off' technology. Very comfortable ergonomic handle. Springs derived from armament technology. Sensitive trigger. External setting on 3 torque ranges. Ring for a balancer device. Lower exhaust. Supplied with a set of adjustment springs. Slender body for great precision. Springs available as accessories only: 1754-V - Spring 0.6 to 2.1 Nm (green) 1754-N - Spring 1.1 to 4.3 Nm (black) 1754-J - Spring 1.7 to 5.1 Nm (yellow)
