DESCRIPTION

Composite adjustable revolver screwing tool 1/4", 1,800 rpm

FAST Its speed of up to 1,800 rpm combined with its low weight (just one 1 kilo) improves its performance by nearly 25% with respect to a traditional power driver. **TECHNICAL** The two differential-tension springs ensure consistent screwing thanks to its regularity, thus contributing to better productivity. Power screwdriver with a composite body is equipped with a so-called 'adjustable' clutch. It includes two springs in line set to two different tensions. High speed of 1,800 Nm for a range of up to 6 Nm. Well-balanced tool. Its high-structure casing allows you to work in places with limited access.

STANDARDS / DIRECTIVES

2006/42/CE, ISO 11148-6, ISO 15744, ISO 28927-2
