DESCRIPTION

Valve lever for light vehicles and trucks

Aluminium body. Chrome-plated steel cylinder. Progressive control. OUR OPINION: New, more powerful model for removing and installing valve springs in total safety. Its micrometric control valve provides excellent control of spring compression and optimum safety for extracting seals and valve retention half-moons. Professional tool. Supply pressure: 6 bar. Compression force: 160 kg. Length = 500 mm / Width = 250 mm / Weight: 4.580 kg. Supplied in a case with complete accessories for all types of engine.

SPECIFIC DATA
