DESCRIPTION

SAMSOPLUS® joiner's hammers, three-material handle

SAFETY:Head-handle attached with two-component epoxy resin.Separation: 200% of the wood handle standard.Thrust: 400% of the standard.**COMPOSITION:**1) Bone-shaped fibreglass: full rigidity. Withstands changes of environment.2) Polypropylene: lower vibration levels.3) SEBS overmoulding: to ensure the handle is ergonomic.**COMFORT:**The overmoulding provides an ergonomic shape for a perfect grip and complete adherence.The wider lower part of the handle means the hammer will not slip out of your hand in movement.**PRECISION:**Head with its finely polished tapered shape.

Forged carbon steel head. Non-slip material. Ergonomic fibreglass reinforced handle. Head + handle bonded with epoxy adhesive. Finely polished tapered head.
