## DESCRIPTION

### Small hammers with interchangeable heads + clip

Safety: To ensure your interventions are safe, to avoid dropping tools and wasting time, to prevent industrial accidents and improve productivity = Opt for the SAM anti-dropping solution. All the products in the FME range are equipped with a clip preventing you from dropping your tools.

Specially recommended for delicate work. Chrome-plated steel head. Varnished ash handle. Handle securely attached to head with metal wedge. Indentations in the head prevent the inserts coming loose during use. The striking surfaces will not mark the parts hammered. Supplied with two equivalent inserts, rubber and hard wood.
