## Bearing puller set k300a-27

With kit K300A-27 it is no longer necessary to remove the vehicle's stay rods and axle spindles to remove or install a new normal or new-generation bearing with integrated ABS sensor. Very easy to use thanks to an adjustable basic device and automatic centring, it allows you to work directly on the vehicle and offers time savings of approximately 50% with respect to traditional methods. Kit K300A-27 consists of: - 1 chuck 100 mm - 1 chuck 125 mm- 1 set of 28 adaptors/ pushers of different sizes.
