DESCRIPTION

FME combination wrench

Forged chrome-vanadium steel. Eye bent at 15° to facilitate handling on flat surfaces. Slender open-end and finer eye making it easier to access nuts. Eye with Surface Drive profile for a better grip on the nut. Body wider in the centre to facilitate handling and greater comfort. Spanner designed to reduce its weight while keeping very great strength and improve utilisation comfort. Strength: 1.7 x the standard on the eye side and 1.4x the standard on the open-end side. Reduced thickness and width on the open-end side making it easier to access the nuts. With FME clip function.

STANDARDS / DIRECTIVES
