DESCRIPTION

MODULES ABS

Module of 12 offset combination wrenches

Counter-cranked long head: Its large clearance allows an obstacle to pass even close to the nut to be handled. Fine head: Allows the wrench to pass into confined spaces. Long body: Used to apply high torque values. Surface Drive punching. The contact surface on the flats and not on the corners of the nut enables better tightening. Chrome-vanadium steel. Weight: 1,400 g
