DESCRIPTION

Exhaust hose system

Product compliant with the CRAMIF directives. Exhaust gas extractor powered with compressed air. The compressed air causes a high-speed flow inside the exhaust gas suction chamber. Enables all workshops to work in an environment free of harmful gases. Mounted on a trolley, easy to move. - flow 400 m³/h minimum- noise 70 dB. Supply pressure 6 to 12 bar. Power supply pipe with minimum Ø 10 mm. Height adjustable (H. min. 100 mm, max. 1,100 mm) and directable to adapt to the position of the exhaust pipe. Self-supporting: space for inserting CO₂ control probes. Rubber suction taper to avoid damaging the bodywork. Not to be used during DPF regeneration operations. Supply with an aluminised steel sleeve to access bent exhaust outlets placed behind the bumpers. Complete vacuum extractor on trolley with wheels, pipe Ø 120 mm, length 10 m.
