DESCRIPTION

Digital universal pressure tester

Automotive diagnosis requires increasingly precise measurements, perfect connections and very often the possibility of saving or printing the data.

In the past pressure measurements were done using various analogue pressure gauges designed for each different application.

The best known being petrol and diesel compressionmeters, oil pressure tester, petrol pressure tester and negative pressure tester.

Today, it is also important to measure other pressures such as the petrol and diesel injection high pressures, the pressures in the cooling circuits or the AD Blue pressure.

This universal tester can replace all the old analogue testers with a single digital tester guaranteeing a very high degree of measurement precision and adaptors identical to those mounted originally, by means of a tablet.

Suitable for:

Petrol and diesel compression pick-off.

SAM Outillage

10 rue Camille de Rochetaillée

Oil pressure.
Turbo pressure.
Air conditioning pressure.
AD Blue pressure.
Common rail pressure.
Fuel low pressure.

Tough 7" TFT colour touchscreen tablet.

Battery: LiPo 3.7V / 2000mA.

USB port for charging the tablet with charge LED indicator.

PC connection via USB port.

Protection bumper.

All the screws are mounted on a brass insert with 1/4" thread on the back to attach suction cups.

Accessories: 300 bar sensor.

Sensor -1 > 3 bar.

Universal adaptor for diesel compression pick-off.

Universal adaptor for petrol compression pick-off.

Other adaptors for the various functions.

STANDARDS / DIRECTIVES

2011/65/UE, EN 61000-3-2, EN 61000-3-3, EN 61326-1, 2014/30/UE, IEC 62321-4:+AMD1, IEC 62321-5, IEC 62321-6, IEC 62321-7-1, IEC 62321-7-2, IEC 62321-8

SPECIFIC DATA

Designation	PILOT PRESSURE UNIVERSAL TESTER WITH TABLET
Sales reference	C-375-DC
Weight (kg)	4.400
Guarantee	M1 SAM Equipment and Machine Guarantee:

Guarantee applied

M1 | SAM Equipment and Machine Guarantee:

SAM Outillage

10 rue Camille de Rochetaillée
