DESCRIPTION

Intelligent battery charger

The smart battery chargers and testers conform to standard DIN40839. Automatic battery chargers with the program for keeping the charge (pulsed charge). The batteries are charged thanks to specific programs. Constant voltage charging characteristics, constant current, this minimises the battery charging time. The chargers can be connected to the battery for long periods of time, the charger adapts to the battery's charging status and keeps the battery ready for use by means of the pulsed charging. Suitable for regenerating batteries that have undergone a great number of discharging cycles. Resistant: IP65

STANDARDS / DIRECTIVES

EN 60335-1, 2006/95/CE, 2004/108/CE
