DESCRIPTION

Mechanical composition for installation and removal of wheels and disks

Ideal composition for laying and removing VL wheels.

This kit all in one will allow you in addition to control the thickness of brake discs and pads to ensure the good condition of the braking system.

The foam is provided with specific locations for all your special tools such as pneumatic or electric impact wrench, shock or conventional sockets, extra single key to 140Nm, etc. (not included in the composition): example visible in photo n ° 2.
