DESCRIPTION

Hydraulic air bag bladder jack

This product is ideal for day-to-day car maintenance lifting operations on the move.

Its small size and its ease-of-use make it the essential ally on a daily basis for all intervention and repair trucks.

Two models for lifting 2T with two possible lifting heights:

CRHB-2: One 2-bulb model with maximum lifting to 430 mm.

CRHB-3: One 3-bulb model with maximum lifting to 560 mm.

Can adapt to environments for a user requiring ultra-flat car lifting or a more standard type of lifting.

Product with minimum dimensions for quick stowage in your vehicle, and easy to move thanks to its ultra-light weight (30x50cm and hardly 15kg).

The product is supplied with an extension fitted with a rubber pad protecting the vehicle's chassis while lifting it.

Fitted with a double-acting lever: rise / descent (right/left).

No maintenance required.

SAM Outillage

The system is equipped with an internal telescopic guidance system making it possible to ensure vertical lifting and lowering, therefore greater robustness and the guarantee of a maximum lifetime.

Conform to standards EC GS TUV and 2006/42/EC and EN1494.

Recommended utilisation pressure: 6 bar and 7 bar max.

Provide a 1/4" air intake connection with a coupling type 19062 (PTS/SAM range) to connect it to your network.

STANDARDS / DIRECTIVES

2006/42/CE

SPECIFIC DATA

Sales reference	Weight (kg)	C (mm)	D (mm)	A (mm)	Capacity	B (mm)	Guarantee
CRHB-2	16	80	430	115	2T	235	M
CRHB-3	17.5	60	560	200	2T	300	M
