**DESCRIPTION**

**Extraction kit for injector**

Used to remove diesel engine injectors with carbon scaling or that are seriously corroded, in particular on the modern high-pressure injection systems. Mechanical extraction tools. The engine's design and the method used to attach the injectors to the cylinder head indicate which method can be used to extract the injectors. **DETAIL:-** Injector sockets: 25-27-29-30 mm- Set of extractors, pins, hooks and handles.- Ideal for Mercedes CDi Delphi injectors and Bosch injectors.
