Versatile and precise key allowing to carry out multiple interventions without changing tools.

Repeatability guaranteed to ensure the safety of your tightenings.

ERGONOMICS:

Handle resistant to hydrocarbons, solvents, brake fluid and oil.

Efficient and comfortable grip for the operator reducing the risk of MSDs.

COMFORT:

Scale in Nm with wide range of use ranging from 1 to 350 Nm, to have the right tool for all possible situations.

Key supplied with a 3-point calibration certificate in a plastic case or case according to the number of accessories.

ACCURACY:

Accuracy guaranteed at +/- 3% up to 5000 cycles, 25% better than ISO 6789 (except models with 1-5Nm capacity: +/- 6%).

New spring enduring fatigue tests of 1,000,000 cycles to the maximum torque of each key.

Mark on the handle for a perfect positioning of the point of support ensuring accurate tightening.

Each key is numbered and delivered with a verification report in accordance with the NF EN ISO 6789 standard.

Mechanical key with trigger.

Type II - Class A.

STANDARDS / DIRECTIVES

NF ISO 3315, NF ISO 6789-1

SPECIFIC DATA

Designation	TORQUE WRENCH KIT DYNATECH 100 NM FOR ROUND ENDS
Sales reference	DYTF-200-1
L (mm)	498
Weight (kg)	1.68
Container	Tube

SAM Outillage
