DESCRIPTION

Box of grip extractors

Multi-purpose: The 12 to 46 mm flanges will allow you to extract a multitude of bearings or bushings simply and quickly. **Safety:** This box will allow you to extract bearings and bushings safely from the interior without any risk of damaging them. **Precision:** The flanges contained in this box are particularly well suited for the most common bearings and will allow you to extract your bearings and bushings simply with precision. **Progressive system:** The support beam's set screw (quenched to 55Hrc) will ensure a very progressive opening of the flanges during the extraction phases.

Embedded bearing extractor.

Used to extract bearings and raceways through the interior borehole. Composition:

8 flanges with dia. 12 to 46mm.

1 bracket EX-137-T2.
