DESCRIPTION

2 and 3-arm self-centring extractor

SAFETY: The claws do not open more than recommended.**COMFORT:** Fitted with an O-ring limiting the absorption of the impact generated by the great forces.**PRACTICAL:** Self-centred, adjustable height.

Self-centring pullers with simultaneous claw movement, enabling quick, easy installation and balanced positioning for optimum distribution of the forces. Fitted with an O-ring that absorbs the impact generated by the great forces applied. On references EX-220-6 and 7, the body of the puller has a bronze nut allowing you to increase the traction force. Secure, it will not be possible to open the claws more than is recommended.
