DOT3/4/5-compatible.

No adjustments to be made by the user, no selection of the fluid.

Just one control button. Very simple to use in the garage.

Clear indication of the recommended boiling T° for DOT 3/4/5 on the screen. Self-protected system: If immersion in the fluid is not sufficiently deep, it switches to safety mode.

Smart system: If the vehicle's battery is too weak or over-charged, it will notify the user. If there is a defective internal component, it will also notify the user.

Removable electrical heater part / available as spare part.

Can be cleaned with clear water: used to test the boiling T° of water (100°C) to check the device's precision.

EC-approved.

One test = 30 second.

12V max. = no 220V-related risks.

Used to check the condition of the brake fluid (therefore the humidity present) by boiling.

SPECIFIC DATA

Designation	BRAKE FLUID TESTER WITH BOILING POINT
Sales reference	FET-7B
Weight (g)	1020
Guarantee	M1 SAM Equipment and Machine Guarantee:

Guarantee applied

M1 | SAM Equipment and Machine Guarantee:

Guarantee for a limited period, covering technical tools, devices and machines used under normal conditions. The length is given by the number after the letter M: 1 to 5 years
