DESCRIPTION

9l cylinder, 300 bar

Depressurised volume: 2462 litres.

Overall diameter: 173 mm.

Overall height: 680 mm.

The regulatory life span is 5 years per test and a maximum of 15 years.

Type 3 cylinder: aluminium liner, carbon fibre and fibreglass.

The cylinder is supplied with a valve and graduated pressure gauge showing the volume of compressed air remaining.

COMFORTABLE:

The upper cylinder cap allows easy, comfortable handling of the cylinder

The lower cap serves to keep the cylinder vertical.

STRENGTH:

The composition of the cylinder makes it very light at the same time as giving it great mechanical strength.
