## DESCRIPTION

### Mobile stainless steel system for cleaning brakes for all cars and hgvs

This machine is designed for cleaning and degreasing brake systems, hubs and other parts for cars and HGVs using a water-based biodegradable cleaning liquid. It is a pneumatic device equipped with a double-membrane pump. Used with product SAM-30L-DEGR (can of organic degreaser). The machine is entirely made of steel AISI 304 and consists of: 1. A drum containing the cleaning and degreasing liquid (30L can) 2. A base supporting the drum of cleaning liquid and the control panel for controlling the liquid output speed by impulses. 3. A removable tray with wheels and a sloping surface for recuperating the cleaning liquid.

**MAIN PARTS OF THE MACHINE-** Handle- Brush with special non-catching bristles- Sloping surface- Drum of washing liquid- Safety pictograms- Compressed air connection- Suction tube with filter allowing you to go to the bottom of the tank and even with 5-10 litres left. Removable tray filter. Weight: 30 kg. Tray height: 1,030 mm. Width: 600 mm. Depth: 750 mm. Permissible load on the removable tray: 30 kg. Capacity of the removable tray: 40 Litres. Dimensions of the removable tray: 750\*500\*H100 mm. Air supply pressure: 6/10 bar. Warranty: 3 years for the double-membrane pump and 3 months for all the external parts (brush, valves, etc.).
