DESCRIPTION

FLAT NOSE NOSE PLIERS INSULATED 1000 VOLT

Standards: Conform to standards NF EN IEC 60900, FT BT 402. Utilisation: These pliers are specially designed for live low-voltage working in confined spaces where the risk of short-circuiting could have serious consequences for people and the installations. Characteristics: Twin-material handle ensuring a good grip and easy handling without any risk of damage to gloves. Arm profile enabling easy transmission of a great force, ensuring optimum control of your movements. Suspension system, ideal for working at a height. Utilisation ergonomics with insulation gloves. Composite material ensuring a light weight. - Insulating tool reducing as much as possible any risks of short-circuiting, none of the parts made of conducting material are accessible. - Ceramic cutters compressed to more than 200 tonnes giving them extreme hardness characteristics. - Striated nose with "soft" profile to avoid damaging the cables.
